Dear Congressional Leaders:

A historic moment is upon us and we urge you to seize it.

According to news reports, during negotiations with White House officials over the upcoming “omnibus” appropriations bill, congressional Democrats offered to support a proposal that would provide both \$25 billion in border security and a permanent solution for Dreamers.

We believe this is a reasonable proposal – one that should be supported by the president and members of Congress in both parties. We encourage you to use your leadership positions to support its inclusion in the upcoming omnibus appropriations bill.

It’s now time to cast aside partisan differences and support a solution that provides certainty for Dreamers, who were brought as children to the United States and seek the opportunity to apply their skills and talents in this country.

Please don’t let this opportunity pass.

Sincerely,
