

Eugene Branch/Cascadia December L.U.G. Meeting

Where Does Our Electricity Come From?

What are the sources of the power we use here in Lane County? What are the present and future opportunities for clean renewable energy? Jim Maloney, an Energy Resource Projects Manager with the Eugene Water and Electric Board (EWEB), will discuss where EWEB's electricity comes from, and how this compares with other regional and national utilities. Jim will compare the costs and environmental impacts of various power sources, and what the options are for "Green Power", including wind, renewable energy credits (RECs) and distributed power generation. There will be ample time for questions and answers.

U.S.G.B.C. CASCADIA
CHAPTER/EUGENE BRANCH

L.U.G. Meeting

Tuesday, December 12, 2006

Noon- 1:30 p.m.

Sloat Room, Atrium Building
10th & Olive, Eugene

L.U.G. (L.E.E.D. User Group) meetings are an opportunity to learn more about the Leadership in Energy and Environmental Design (L.E.E.D.) Rating System, share information and ideas on green building and sustainable design, and foster interaction in the design community. If there are topics you would like to hear more about or share, please contact us.
