

LEED-NC

Technical Review Workshop

Are you ready to enter the rapidly growing green building market?

Attend the LEED for New Construction Technical Review Workshop presented by the U.S. Green Building Council. Gain the knowledge needed to maximize building performance, achieve LEED certification and take the LEED Professional Accreditation Exam.

August 17, 2005
8:30 am-5:00 pm
Tacoma, WA

Rhodes Center
950 Broadway
Tacoma, WA 98402

WHY LEARN ABOUT LEED?

Ask any of the 2000 building owners seeking LEED certification right now. Owners and developers are demanding green buildings that save money while protecting the environment and occupant health. The USGBC's LEED Rating System is the nationally recognized standard for green buildings. LEED is already being used by green building projects in all 50 states and the market continues to grow.

WHO SHOULD ATTEND?

Industry professionals seeking to increase their understanding of the LEED-NC Rating System and green building strategies, benefits and resources:

- architects
- engineers
- designers
- contractors
- manufacturers
- developers
- owners
- consultants

USGBC Members receive discounted registration rates on all workshop offerings.

JOIN TODAY to take advantage of this savings.

WHAT'S COVERED?

- Green building costs and benefits
- LEED-NC technical requirements
- LEED-NC certification process
- LEED-NC project case studies and strategies
- Available tools and resources
- LEED Professional Accreditation Exam overview

USGBC workshops are conducted by the top green building practitioners in the country. Workshop registration includes educational materials, lunch, and online access to the LEED-NC Reference Guide and LEED resources. Workshop attendees receive discounts on the hardcopy LEED-NC Reference Guide at registration.
