

# LEED

Build green. Everyone profits.

## Using LEED-NC on Healthcare Projects Wednesday, April 6<sup>th</sup>, 2005 1 p.m. - 5 p.m.

Jean Vollum Natural Capital Center  
721 NW Ninth Avenue, Ste. 300  
Portland, OR 97209

### LEED

The LEED Green Building Rating System is a comprehensive, voluntary design and assessment tool that helps architecture, engineering and construction professionals improve building efficiency, and measure the sustainability of their projects. Understanding LEED is an important step for reducing environmental impacts and achieving superior economic performance. **Architects, engineers, facility managers and building owners** who master LEED concepts and processes become knowledgeable practitioners and consumers of green design and construction.

### Using LEED-NC on Healthcare Projects

This half-day session will leverage LEED concepts into healthcare projects through successful case studies, lessons learned from real healthcare projects and a detailed review of the draft LEED-NC Application Guide for Healthcare.

Onsite registration begins at 12:30 p.m.; the workshop will take place from 1 p.m. – 5 p.m.

### REGISTRATION

Please visit our website: [www.usgbc.org](http://www.usgbc.org).

There are no prerequisites for this course. Anyone in the building industry is invited to attend. **Please note that late registration rates take effect on Wednesday, March 30<sup>th</sup>.**
