

KulshanCLT presents:

Walking Our Talk

Creating the livable communities we want

“Rivals Bill Kreager in content and entertainment value.”

Paul Schissler, Executive Director

Must cars dominate the landscape and public spending?

When does more paving and parking make it worse?

How do the world’s smartest cities stay walkable?

In a lively and engaging slideshow discussion, **Dan Burden**, founder of **Walkable Communities**, will demonstrate how to create and celebrate public spaces that are inviting, safe and affordable.

Dan Burden is a nationally acclaimed authority on bicycle and pedestrian facilities and programs, street corridor and intersection design, traffic flow and calming, and the other design and planning elements that affect roadway environments.
