

# HOUSE AS A SYSTEM

## Home Building Solutions Conference

October 19<sup>th</sup> & 20<sup>th</sup>, 2005

Linn County Fair & Expo Center, Albany, Oregon

### BACKGROUND

Today's home builders face a dynamic set of challenges: code requirements, new materials, client demands and construction liabilities. Understanding the "house as a system" approach based on building science offers home builders answers to the timely issues of managing building moisture, protecting indoor air quality, and minimizing callbacks. Learn first-hand from leading national and regional experts about proven building practices and the essentials of integrated building performance, and in the process, build your base of satisfied customers, your business and your profits.

### DATES

October 19<sup>th</sup> & 20<sup>th</sup>

8:00am – 4:00pm

Cocktail reception October 19<sup>th</sup> at 5:00pm
